3. Date 2/28/2011

4. After the fact ☒ YES ☐ NO

5. Nature of the Emergency

On January 21, 2011 one thousand feet of NELHA's 12" deep seawater pipeline floated to the surface, broke loose of its anchor and began drifting in the current. The US Coast Guard classified the drifting pipeline as a major hazard to navigation and requested that the pipeline be salvaged and removed from the ocean as soon as possible. The vendor listed was hired to assist with the recovery of this pipeline.

6. Vendor: Kona Coast Services / Stanley Steamer

Address: 68-1856 Malina Place
Waikoloa, HI 96738

7. Price:

\$1200.00

8. Description of goods, services, or construction to be purchased

Provide a vessel and crew to monitor the location of the drifting 12" pipeline overnight. Vendor parked his vessel adjacent to the drifting pipeline from 6:00 p.m. on January 27th until 8:00 a.m. January 28th. This allowed NELHA to quickly locate and anchor the pipeline to the bottom on January 28th to prevent it from drifting further away. The pipeline had by then drifted 30 miles in three days.

9. Reason for Vendor Selection

Vendor referred to us by reputable and known professional diving contractor. Vendor was notified at 4:00 p.m. on 01/27/11 and asked to mobilize immediately to monitor the GPS location of the drifting pipeline overnight. Vendor was able to perform the desired scope of work with short notice and save NELHA valuable recovery time.
